SMV Drift Runner Axle Shafts

Manufactured in Europe using high quality steel to withstand the rigorous conditions of the underground coal mining for the Australian market.

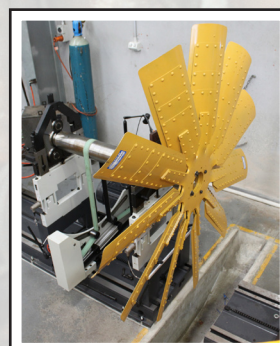

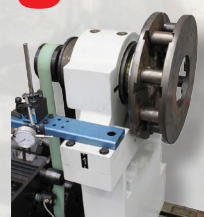

Hardy Spicer stock the components for the complete axle shafts to suit the underground SMV Drift Runners.

Hardy Spicer also have the SMV Driftrunner front and rear driveshafts with specially designed seals for longer life hours.

Industrial Balancing

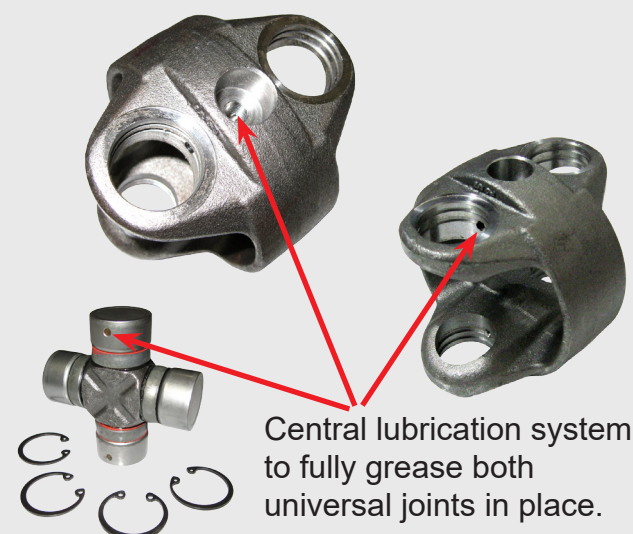

With Hardy Spicer's Schenck industrial balancers, we can balance all your items that require precision balancing for smooth high speed operation.

FANS • SHAFTS • ROTORS • IMPELLERS & MORE

Certified in accordance with the AS/NZS ISO 9001:2015 Quality Assurance Standard
